## TopDown Consulting Announces availability of TopDown Migration Manager

*Advanced technology helps Hyperion Enterprise users speed the transition to Hyperion's integrated Business Performance Management Suite.*

San Francisco, California – February 11, 2003 – TopDown Consulting, Inc., a Hyperion Solutions Gold partner, today announced the availability of TopDown Migration Manager, its advanced technology that quickly transitions Hyperion Enterprise customers to Hyperion's integrated Business Performance Management Suite. For the first time, customers can convert to Hyperion Financial Management, Hyperion Planning and/or Hyperion Essbase in a matter of minutes while keeping the cost of re-implementing down and taking advantage of features available in the new products.

“TopDown Migration Manager is right on target. This is exactly what Hyperion Enterprise users need to take advantage of next-generation Hyperion solutions. With TopDown Migration Manager, Hyperion customers will benefit from their current investment in Hyperion Enterprise by maintaining consistency and speeding their deployment of Hyperion's Business Performance Management suite.”

– Mike Zajec, Services Practice Manager, Hyperion Solutions

Using TopDown Migration Manager, converting to Hyperion's latest business performance management applications is fast and straightforward. Lengthy build periods and tedious conversions are now automated, and are complete in just minutes, not weeks. TopDown Migration Manager streamlines the migration from Hyperion Enterprise while maintaining data integrity and preserving application functionality. Whether Hyperion users fully replace Hyperion Enterprise or just extend its capabilities, TopDown Migration Manager leverages their existing applications so customers can fully benefit from their existing Hyperion investment.

TopDown Migration Manager provides Hyperion Enterprise customers the ability to:

- Quickly reformat and load information to convert to Hyperion Financial Management.
- Add powerful budgeting capabilities by integrating with Hyperion Planning.
- Provide expanded web-based reporting capabilities by leveraging Hyperion Essbase.

### TopDown Migration Manager Key Benefits

- Supports Hyperion's Business Performance Management Suite
- Leverages current applications for faster implementation
- Facilitates design and prototyping
- Eases the transition from Hyperion Enterprise
- Enables a true rapid application development environment
- Provides quicker access to mission critical data during migration period
- Eliminates need for dual maintenance
- Improves data accuracy
- Allows repeatable migration process for ongoing data management

- Provides confidence to meet project timelines
- Accelerates implementations
- Reduces dependency on IT resources
- Increases ROI

“Many of our clients are looking to expand their Hyperion Enterprise solution by leveraging Hyperion’s new Business Performance Management suite. As a long-time Hyperion client, I understand the challenges involved in staying current with new applications and technologies. TopDown Migration Manager was created to simplify this transition and provide a significant advantage toward a successful implementation or upgrade.”

– Juan Porter, President, TopDown Consulting, Inc.

### **Availability**
